TRADING CO.**  
AUSTRALIA'S FINEST

## PRODUCT INFORMATION

### Lemon Myrtle (*Backhousia citriodora*)

#### Lemon Myrtle Floral Water

Lemon Myrtle is native to the traditional Bundjalung lands of Northern Rivers NSW, where for thousands of years, the first nations people have revered its powerful healing properties. Our Lemon Myrtle is organically grown on the same rich volcanic soil.

Lemon Myrtle Floral Water is a unique product in the market. We extract the moisture trapped inside the Lemon Myrtle leaf as part of our modern drying process. The moisture leaving the leaf has a delightful, subtle citrus flavour. It is the highest known source of citral (>90%) and there is extensive scientific evidence demonstrating Lemon Myrtle's anti-oxidant, anti-microbial, anti-viral and anti-inflammatory properties.

#### TYPICAL SPECIFICATIONS

##### Microbiology

Total Plate Count	< 10 <sup>7</sup> (typical < 10 <sup>5</sup> )
Yeast	< 10 <sup>4</sup> (typical < 10 <sup>3</sup> )
